

EASY WORKING WITH

Gorge Security Shred

No contract is necessary. It is our wish that you continue to do business with us because of an excellent level of service.

Initially, our company representative will consult with you to review your security requirements, how much paper you have to shred, your collections areas, building lay-outs and a possible schedule.

They will return with a proposal for your customized pick-up schedule and a service agreement. Your best rate does not depend on a contract.

Uniformed workers will exchange the filled, numbered, locked bins or consoles for empty containers. Back at our Pine Grove location, above Hood River, the bins will be weighed, recorded and locked inside a secured area.

Your documents will be destroyed within three-business days. The shredded paper is then baled and released to a recycling company.

You receive a Certificate of Destruction along with your invoice.
